STUDENT-FACULTY NEWS

Dr. Ghoshal Norden Distinguished Teacher

Dr. Nani G. Ghoshal was this year's recipient of the Norden Distinguished Teacher of the Year Award. The recipient is selected by each veterinary student voting for an individual he or she has had for an instructor. The votes are then tallied by the Norden Award Committee, consisting of past recipients and chaired by the previous year's winner. Thus, Dr. Ghoshal will succeed Dr. Duane Lassen as the committee chairman next year. Following tabulation of the votes, the committee makes its recommendation to Dean Pearson. The award consists of a memorial plaque and a check for \$400.00 (both contributions of Norden Laboratories, Lincoln, Nebraska), which were presented to Dr. Ghoshal by Dean Pearson at the 1978 SCAVMA spring banquet.

Dr. Ghoshal received his G.V.Sc. from the Bengal Veterinary College, Calcutta, India in 1955, where he also received the "Raymond Star" (Gold Medal) from the West Bengal State Government, which was the highest scholarship in his entire undergraduate class. He earned his D.T.V.M. from the Royal (Dick) School of Veterinary Studies, Faculty of Medicine, University of Edinburgh, Scotland in 1961, Dr. med. vet. from the Tierärztliche Hochschule, Hannover, West Germany in 1962, and Ph.D. from Iowa State in 1966. His teaching career at I.S.U. began as an instructor in 1963 and he has progressed through the ranks attaining his present status as full professor in the Department of Veterinary Anatomy, Pharmacology and Physiology in 1974. Committee responsibilities held by Dr. Ghoshal include Chairman of the International Veterinary Medicine Committee, member of the University Council for International Programs, Graduate Committee, and College Curriculum Committee. He is also a member of the Editorial Board of the Iowa State Journal of Research, and is a full member of the Graduate Faculty. In addition to co-editor and author/co-author of 13 chapters of Sisson and Grossman's *Anatomy of the*

Domestic Animals by Robert Getty, 5th edition, 1975, Dr. Ghoshal is also author/co-author of 56 scientific journal articles. His current interests include working as senior author for publication of a book entitled *Venous Drainage of the Domestic Animals*, which is expected to be published in 1979. He is also conducting research in the area of brain temperature regulation in sheep.

Dr. Ghoshal is a Life Fellow of the Royal Zoological Society of Scotland, Edinburgh, U.K. He is also a member of various professional societies: World Association of Veterinary Anatomists, American Association of Veterinary Anatomists, American Association for Advancement of Science, Pan American Association of Anatomy, New York Academy of Sciences, Iowa Veterinary Medical Association. Also, he is a member of several honor societies: Gamma Chapter of Phi Zeta, Gamma Sigma Delta, Sigma Xi, Phi Kappa Phi, American Men of Science, Who's Who in the U.S.A., International Scholar's Directory, Paris, etc. He received a German Academic Exchange Scholarship (1961-62) from the Government of the Federal Republic of West Germany.

Dr. Ghoshal and his wife, Chhanda, have a four-year-old daughter, Nupur. His hobbies include traveling, photography, history and culture of other countries, and international relations and politics.

Dr. Ghoshal and sophomore Judy Buchtum.

SCAVMA Service Awards

Dr. McCurnin

Dr. Dennis M. McCurnin was the recipient of the outstanding service award from the Student Chapter of the AVMA at the annual SCAVMA awards banquet May 4, 1978. This is the second annual presentation of this award to faculty members, selected by the students, who have performed outstanding services and made outstanding contributions to students above and beyond their normal duties.

Dr. McCurnin received his DVM from ISU in 1966 and then served for two years in South Vietnam as officer in charge of the War Dog Hospital at An Khe, South Vietnam. Dr. McCurnin came back to ISU and received his M.S. in 1970, then spent six years in private practice in Phoenix, Arizona before returning to ISU in 1976 as an Associate Professor of Surgery in the Department of Clinical Sciences. In 1977 he was appointed to the post of Assistant Dean of the College of Veterinary Medicine.

Dr. McCurnin is a member of the AVMA

and IVMA, American College of Veterinary Surgeons, Veterinary Orthopedic Society, ISU Alumni Association, and the Arizona Academy of Veterinary Practice.

Some of the activities qualifying Dr. McCurnin for the award include: playing a major part in securing the bid for the 1979 SCAVMA Symposium for ISU, going out of his way to help students, and helping with many aspects of chapter functions.

Other awards received by Dr. McCurnin include the Norden Distinguished Teacher award in 1970, Upjohn Small Animal Award in 1966, Veterinarian of the Year Award in Arizona in 1972, Outstanding Young Alumnus of ISU in 1975 and Outstanding Young Men of America Award in 1975.

Dr. McCurnin truly gives fully of his time and resources to the Student Chapter, his profession, community and his fellow man and we would like to salute him on a job well done.

Dr. McCurnin (left) and Jack Daniels, senior student.

Dr. Bal

Dr. Harpal Bal was also awarded one of this year's outstanding service awards. The recipients of this honor must be faculty members who have "performed outstanding services and made outstanding contributions to students, above and beyond their normal duties." This is a special and unique award, in that only student body voting determines the winners.

Dr. Bal received his B.V.Sc. from Punjab University in 1953 and certificate of accomplishment in Anatomy from Ohio State University in 1959. He joined the faculty at Iowa State in 1964. In 1966 he received his M.S. and in 1969 his Ph.D. with a major in Veterinary Anatomy and minor in Veterinary Pathology, all from ISU. He is currently an

Iowa State University Veterinarian

Dr. Bal

Associate Professor in the department of Veterinary Anatomy, Pharmacology, and Physiology.

He currently holds membership in numerous professional organizations including: IVMA, Royal Association of Veterinary Anatomists, American Association of Veterinary Anatomists, Pan-American Association of Veterinary Anatomists. He was also recognized by a Certificate for Distinguished Participation in the XIXth World Veterinary Congress. Another of his more distinguishing awards was a Certificate of Achievement in Anatomy by United States Department of State (AID) in 1964.

Dr. Bal has prepared over 200 Kodachromes and autotutorial instructional supplements for various veterinary courses. He also spent numerous hours of his own time, evenings, weekends, etc. in helping students throughout the last 20 years as a dedicated teacher and productive researcher. His current research involves the likelihood of birth defects by pesticides, insecticides, and herbicides.

* * * * *

Graham—Outstanding Teacher at ISU

Jill S. Engelstad*

Dr. David L. Graham has been chosen the 1978 Outstanding Teacher at Iowa State University. Dr. Graham works in the Veterinary Pathology Department doing research and teaching both undergraduate and graduate courses in Pathology. His wife, Dr. Carla Graham, is also a Pathologist at Iowa State. They have two sons, Tee and Jim.

After graduating in 1961 from Pennsylvania State with a degree in Zoology, he obtained his D.V.M. from Cornell University in 1965. He began his professional career at the Animal Medical Center in New York City, where he was an intern in Medicine and Surgery. A year later, he decided to specialize in Pathology. After his residency in Pathology at the Animal Medical Center, he became a consultant in Veterinary Pathology for the Bronx Veterans Administration Hospital.

Dr. Graham came to Iowa State as an in-

structor in Veterinary Pathology in 1967. Part of his reason for choosing Iowa State was due to the college's good reputation in Veterinary Pathology. He also was favorably impressed with other ISU Veterinary graduates he had met in New York, including Dr. Frank Ramsey.

Dr. Graham received his Ph.D. in 1973. He is now a Professor and Associate Member of the Graduate Faculty. He was named Professor of the Year in the College of Veterinary Medicine in both 1972 and 1974. Now in 1978, he has been honored as ISU's Outstanding Teacher.

In the past years, he has served on various college committees, such as the Executive Committee of the Faculty Council, the Laboratory Animal Resources Committee and an Ad hoc Committee on Student Grievance Procedures. Presently, he is chairman of the Educational Resources Committee and member of the committee on Pseudorabies Research.

*Miss Engelstad is a second year student in the College of Veterinary Medicine, ISU.

Dr. Graham's areas of special interest and research include skeletal physiopathology, and wildlife diseases such as avian herpes virus and wildlife pseudorabies.

Many people become acquainted with Dr. Graham through his interest in wildlife. One of the courses he teaches is on diseases of caged birds. Dr. Graham also helps senior students interested in doing their preceptorships in zoos.

Dr. Graham has enjoyed painting wildlife since he was young. Falconry is another hobby. Dr. Graham belongs to the American Association of Zoo Veterinarians, the Wildlife Society, and the Wildlife Disease Association. Other professional organizations include the American College of Veterinary Pathologists, American Veterinary Medical Association, Alpha Psi, and Omega Tau Sigma.

As a student, Dr. Graham's favorite type of teacher was one that knew many things besides the subject he or she taught; someone who had many interests and would get to know the students. From his own teaching experience, Dr. Graham has found that a subjective test shows more of a student's ability. Due to the large size of classes, it's hard to give a subjective test, but he tries to give at least one essay in each test.

Dr. Graham has been an interesting man to interview because of his accomplishments and interest in students, which were some of the reasons he was given the 1978 Iowa State University Outstanding Teacher Award.

Dr. Graham

Hogle Pres-elect IVMA

Glenna Rasmussen*

Dr. Roger M. Hogle, Professor of Veterinary Microbiology and Preventative Medicine at Iowa State University, was installed as President-elect of the Iowa Veterinary Medical Association at its 96th annual meeting held in Des Moines on January 22-25. He will take office as President at the next IVMA meeting to be held in January of 1979.

Dr. Hogle attended Conrad Consolidated High School in Conrad, Iowa, and did his undergraduate work at McPherson College in McPherson, Kansas. He received his DVM from Iowa State University in 1958 and his MS in 1967, specializing in immunology. Before joining the ISU Veterinary Medicine faculty in 1963, he spent five years in private practice in LaPorte City and Durant, Iowa. Dr. Hogle presently teaches a three-quarter sequence course on infectious diseases to third year veterinary students and is in charge of the Clinical Microbiology Laboratory. His teaching has also been extended to continuing education for field veterinarians, and he has participated in extension short courses throughout the state. In addition, he has presented many papers at various veterinary medicine meetings. Dr. Hogle also serves as academic advisor to all junior or senior veterinary medicine students.

Dr. Hogle is a member of and has held offices in Phi Zeta, Gamma Sigma Delta, and Phi Kappa Phi honorary societies; as well as the AVMA, IVMA, Central IVMA and the U.S. Animal Health Association.

Dr. Hogle was voted Professor of the Year by the Veterinary Medicine Student Body in 1969, was presented the Iowa State University Award for outstanding teaching and distinguished service to the university in 1971, and has twice received the Norden Distinguished Teacher Award, in 1967 and 1974.

Dr. Hogle has been involved in much research dealing with clinical microbiology and antibacterial sensitivities and has authored and coauthored many publications on these subjects.

*Miss Rasmussen is a second year student in the College of Veterinary Medicine, ISU.

Herrick—"Iowa Vet of the Year"

Alan Brady*

Dr. John Herrick, Head of the Iowa State Veterinary Extension Service, has been named "Veterinarian of the Year" by the Iowa Veterinary Medical Association.

Dr. Herrick is a native Iowan, and has been involved in Iowa Agriculture and Veterinary Medicine throughout his career. He received his Bachelors degree in Agriculture in 1941, his DVM in 1946 and his Master's Degree in 1950 at Iowa State College. During his career, Dr. Herrick has held positions in vocational agriculture, general veterinary practice and commercial veterinary medicine before returning to Iowa State to work on the college's artificial insemination program in 1948. He became an extension veterinarian in 1950.

As Extension Veterinarian, Dr. Herrick has been a leader in animal disease eradication, reproduction improvement, and veterinary continuing education in Iowa. In disease eradication, Dr. Herrick had headed programs for the eradication of sheep scabies and brucellosis in Iowa. Mandatory rabies vaccination for dogs was the direct result of the state's Rabies Control Program, which he headed.

Much of Dr. Herrick's academic and extension work has been in the area of livestock reproduction. He has been the author of a large number of works on artificial insemination, reproductive efficiency and diseases of the reproductive tract. He is internationally known in this area, having lectured in Argentina, Brazil, Mexico, and Spain and made films in French and Spanish on artificial insemination and fertility problems in animals.

Dr. Herrick's philosophy in running the Veterinary Extension Service has been that the extension veterinarian must work together with producers and their veterinarians on animal health problems. He believes that extension service to producers and service to veterinarians cannot be separated, since they both work toward the same purpose: the improvement of livestock resources. To this

end, Dr. Herrick has been a major force within the veterinary community as well as the livestock industry as a whole. He has been President of the American Veterinary Medical Association (1969), Chairman of the National Association of Extension Veterinarians, and President of the Iowa Veterinary Medical Association (1963). Since 1950, Dr. Herrick has been responsible for veterinary continuing education at Iowa State. He has sponsored more than 100 continuing education courses at a time when continuing education has grown substantially in importance in veterinary medicine. In addition to these courses, Dr. Herrick disseminates information through press releases, columns in major veterinary and livestock publications, films and speeches. He is a staff editor of *Veterinary Medicine/Small Animal Clinician* and a regular columnist in *Dairy Illustrated*, *Wallaces Farmer*, *Wisconsin Agriculturalist*, *Prairie Farmer*, *National Livestock Producer*, and *Animal Health and Nutrition*. He has also authored over 50 publications used in extension educational programs.

Dr. Herrick strives to maintain Iowa State University as the nation's leader in veterinary extension service. He has always sought to make Iowa State the best in this area, and takes pride in the fact that Iowa State has served as major training ground and model for extension services in other states. His philosophy that the work of veterinarians in practice, education, and extension should always be to the benefit of the livestock producer is reflected in his pride in receiving the Iowa Cattlemen's Association meritorious service award this year. He speaks with enthusiasm of the animal health workshops and educational programs he is now preparing as well as his ongoing programs in such areas as mastitis control and pre-conditioning in cattle.

Dr. Herrick is clearly a veterinarian who enjoys his work. With such dedication and accomplishment, the Iowa Veterinary Medical Association could not have made a better choice for 1978 Veterinarian of the Year.

*Mr. Brady is a third year student in the College of Veterinary Medicine, Iowa State University.

Pfizer Research Fellowship to Egan

Dr. Curtis E. Askelson, director of animal health research, Pfizer Central Research, has presented a \$10,000 research fellowship to Dr. Isabel T. Egan (ISU '75) and Dr. D. L. Harris (ISU '67), of the Veterinary Medical Research Institute, Iowa State University College of Veterinary Medicine.

The fellowship has been established by Pfizer Inc. to supplement postdoctoral support for veterinarians in swine disease research. Dr. Egan, the first Iowa State recipient, will conduct research on the epidemiology of swine dysentery for purposes of a dissertation that leads to a Ph.D. in

Veterinary Microbiology and Preventive Medicine. Dr. Harris will serve as a major advisor.

Dr. Askelson points out that Pfizer's interest in the veterinary profession is not new. "During the past 14 years, U.S. Veterinary students have received more than \$100,000 through a Pfizer scholarship program," he notes. We feel strongly that support of postdoctoral work in swine disease research by veterinarians will result in accomplishments that will help assure progress in animal health."

Promotions and New Faculty Members

Promotion to Professor:

Dr. Dean Newton

Dr. Dean I. Newton, 54, an associate professor of veterinary clinical sciences at Iowa State University, died June 9, 1978 of a heart attack suffered while jogging.

Dr. Newton was born Oct. 23, 1923, in Wichita, Kan. and was married to Catherine

Myers, March 17, 1947, in Kansas City.

From 1952 to 1955, he was in private practice in Osmond, Neb., and from 1955 to 1959, he was an instructor in the College of Veterinary Medicine at the University of Illinois.

Dr. Newton was an associate professor of veterinary clinical sciences at Iowa State University, joining the staff in 1960.

He was a member of Alpha Zeta, agricultural honorary, and Phi Zeta, veterinary medicine honor society.

Dr. Newton was also a former member of the ISU Athletic Council serving from 1969-1974.

Class of 1979

Tom and Susie Ulrickson are the parents of a girl, Molly McMunn, born on July 26, 1978.

Steve and Tanna Abel are the parents of a boy, E. Taylor, born on June 27, 1978.

Randy and Chris Shirbroun are the parents of a boy, David Mark, born on August 19, 1978.

Tim Bertram married Julie Hagel on June 3, 1978.

Matt Sexton married Ginny Maruer on September 9, 1978.

James Fragodt is engaged to Marie Moody.

Kenton Kreger married Anne Cerling on July 29, 1978.

Sharon Hurley married Dave Linn on May 28, 1978.

Class of 1980

Sherry Zenor married Bruce Breeding on August 26, 1978.

Steve Pate married Rhonda Kilwan on August 26, 1978.

Theresa Ritter married Bill Weiser on August 26, 1978.

Brad Gloystein married Mary Coffey on August 18, 1978.

Scott Huse married Judy Stauter on August 5, 1978.

Darrel Kraayenbrink married Mary Brand on August 25, 1978.

Robert Evelsizer married Gwen Myers on August 5, 1978.

Steve Anderson is engaged to marry Nanci Hinson on November 18, 1978.

Monte McCaw is engaged to marry Cindy Sue Hein on February 24, 1979.

Bob and Patty Tiarks are the proud parents of a baby girl, Darci Lorraine born on March 19, 1978.

Kent and Debra Schlaman are the proud parents of a baby girl, Kathryn Ann, born on May 22, 1978.

Class of 1982

John Hallberg married Lois on June 10, 1978.

Ron Wallman married Annette.

Marcus Kehrli and Mary were married on September 2, 1978.

Mark Appelhof and Audry Goeis were married on May 20, 1978.

Dennis Hughes married Amy on August 5, 1978.

Jim Hoffman and Maureen were married on May 29, 1978.

Kevin Pottorff and Starla were married on August 19, 1978.
